ACOUSTIC PANEL SYSTEMS FOR INTERNAL WALLS AND CEILINGS

DECOR®

giving you the finishing touch

Hello, and welcome to your Decor Systems Australasia Product Overview.

Design Innovation

Product Performance

Efficient, Personal Service

Cost Effectiveness

All are crucial elements in the world of Architecture and Interior Design. All are fused together for you at Decor Systems Australasia, the most discerning specifier of high quality interior finishes.

Decor Systems has been owned and operated for three generations by the same family, and has long been instrumental in transforming visionary design into reality, breathing life into brilliant conceptual ideas and combining originality with practicality.

Decor Systems Australasia's versatile and imaginative range of systems create the desired atmosphere across the entire design spectrum from luxury cruise ships, prestigious hotels, educational facilities, auditoriums, sound studios, leisure and sporting facilities, up-market opulent renovations to industrial applications.

There is far more to a great interior finish than meets the eye. From initial briefs to manufacture through to despatch and installation, every aspect of your project will be managed by one of our qualified project management consultants.

Our exceptional standards of materials and manufacturing ensure that your "decor" will always look as good as the day it was installed.

David Faulkes

QUOTE:

"An idea is salvation by imagination".

Frank Lloyd Wright [1869 - 1959]

DECOR®

THE FINISHING TOUCH

DecorLini is without peer when your project demands dynamic looks with high acoustic performance and the ability to vary the absorption without changing the surface appearance.

Imagine the unique warmth and atmosphere radiated by wood. Imagine further, this naturally beautiful panel that allows unlimited sequencing to enable your joint free ceiling and wall design to be as seamless as, well, nature itself.

Indulge your design with the knowledge that DecorLini can be bent: ceiling clouds, curved walls and other shapes are readily achievable, as are stage sets in theatres and auditoriums.

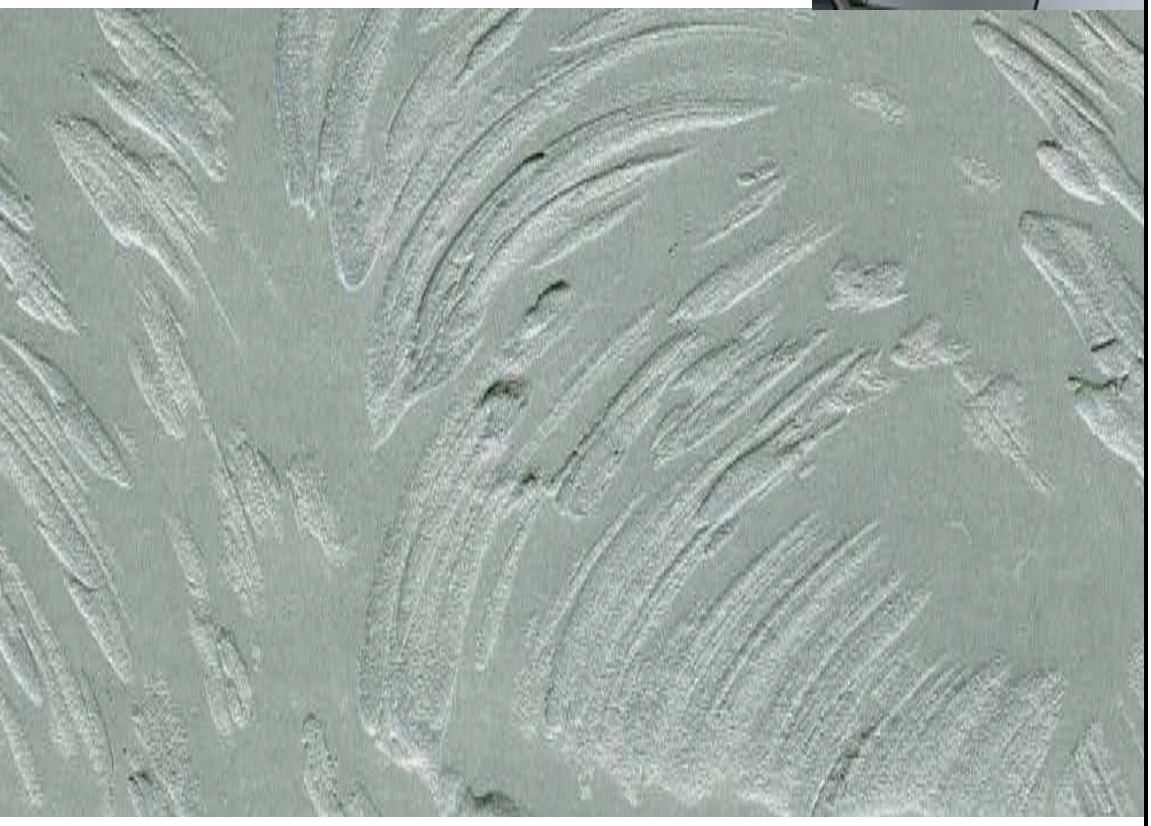
decormetl™

Acquire explicit data on this product by referring to the detailed DecorMetl Brochure located in your Decor Systems Catalogue



DecorMetl is a panel coated with a specialised metal finish which produces an authentic and unique surface that can be used for both interior and exterior applications.

This range of finishes has become a source of inspiration for architects and designers as they extend the design and construction potential of traditional substrates by allowing them to be treated as if they were solid metal.

Once applied, metals can be sandblasted, engraved, burnished and linished resulting in a multitude of different textures and effects. From aged and rusty to sleek and modern, this application is sure to create a unique and individual statement.

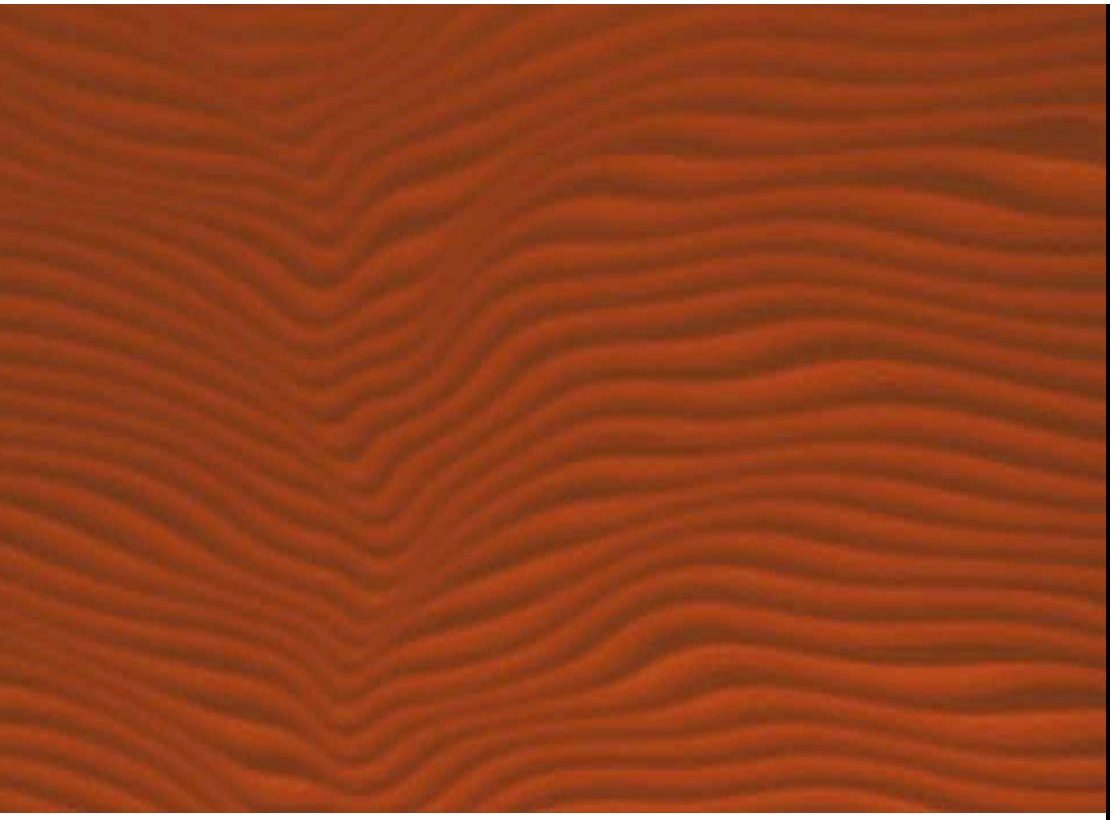
REFERENCE:

"Thank you for your services. The product provided was of high quality and delivered within the period nominated.

Both the Department of Commerce and the Attorney General's Department are very pleased with the finish of the court rooms".

DECOR®

THE FINISHING TOUCH



decorwave™

Acquire explicit data on this product by referring to the detailed DecorWave Brochure located in your Decor Systems Catalogue

DecorWave panel surfaces have been carved and sculpted into dramatic organic forms with this new and exciting product.

Visually geometric in design, the panels are created in such a way that they fit together seamlessly to create a continuous flow pattern.

If it's cutting edge design you are after then you can't go past the new DecorWave panelling system.

decorarti™

Acquire explicit data on this product by referring to the detailed DecorArti Brochure located in your Decor Systems Catalogue

Combine aesthetics and acoustics using visually dramatic forms to create a new standard of interior design.

The DecorArti range allows you - the designer - to come up with your own version of DecorTrend Slotted Acoustic Panel.

Develop your concept, then call your Decor Systems Project Consultant who will be delighted to assist you in creating your unique panel layout.

QUOTE:

"Creativity can solve almost any problem".

George Lois

DECOR®

THE FINISHING TOUCH

Textile finishes to unleash your imagination.

Capture the warm and comforting ambience that only fabric can provide. DecorTouch bonds thousands of tiny fabric fibres to give the magnificent look and feel of a stunningly sculpted fabric surface.

decortouch™

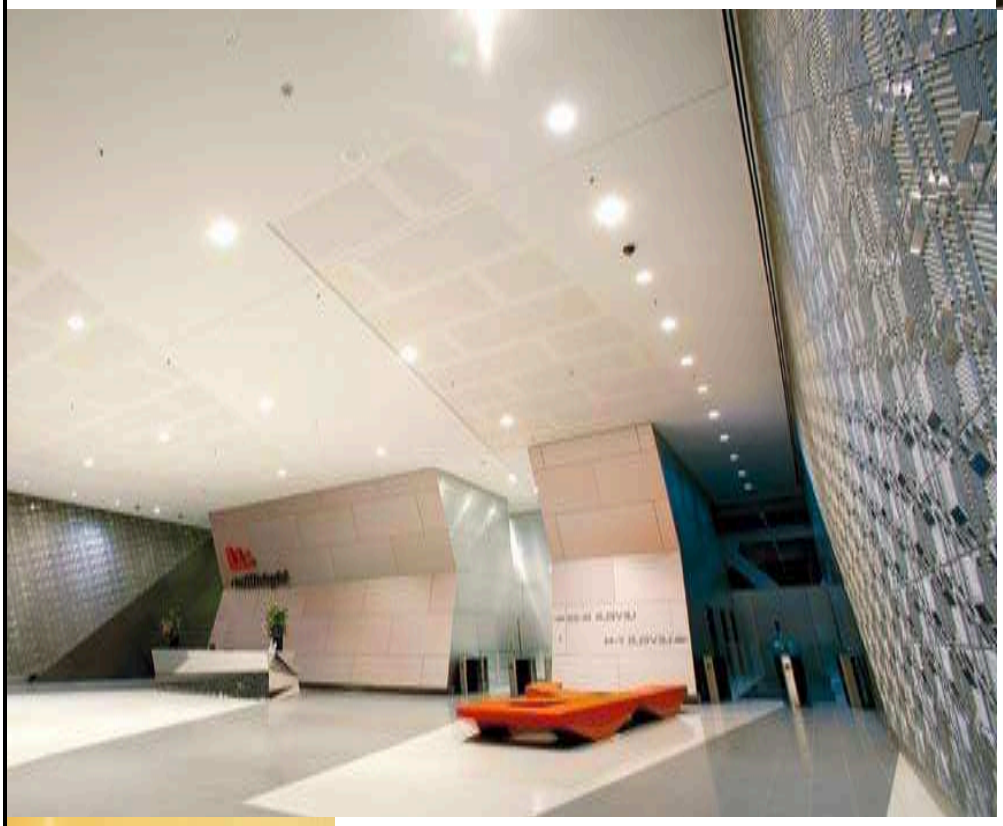
For practicality, versatility and sheer good looks you won't find a better acoustic plasterboard than DecorBoard.

DecorBoard is perfect for ceilings, walls and partitions. There is no limit to its applications such as shopping centres, hospitals, office buildings and factories. In fact, in any area where acoustic performance and aesthetic appeal are of utmost importance, DecorBoard is the product of choice.



QUOTE:

" Design can be art.
Design can be aesthetics.
Design is so simple, that's why it is so complicated".

Paul Rand
[1914 - 1996]

DECOR®
THE FINISHING TOUCH

Decor Lux is a round-hole perforated fibre cement lining panel which is easily incorporated into a wide variety of wall and ceiling systems. When supplied with our optional DecorSorb Acoustic Backing. DecorLux provides a tough, durable lining with excellent acoustic properties, or alternatively may be installed with your nominated insulation.

DecorLux is available with a choice of joint details to suit specific project requirements and due to its versatile fibre cement substrate, will not burn, rot, or warp, making it ideal for high humidity or corrosive environments. These features make it an excellent eave soffit lining material allowing roof space ventilation for the removal of moisture laden air.

Decor Slot is a durable fibre cement sheet panel with modular slot style perforations. Suitable for use as a ventilation panel or as an acoustic panel when supplied with our DecorSorb Integrated Acoustic Backing or when installed with an appropriate absorbent backing material. DecorSlot is available with a choice of panel joint details to suit specific requirements and is ideally suited to high humidity or corrosive applications. DecorSlot helps to reduce ceiling space heat build-up and condensation by allowing natural ventilation of the roof space through the Slots.

REFERENCE:

"We wish to express our appreciation to Decor Systems for the way you conduct business.
we have found your staff to be courteous and your knowledge of products has helped us immensely.

We are happy to recommend you as a supplier of products to other companies".

DECOR®

THE FINISHING TOUCH

DecorTrend's range of slotting patterns and finishes allow for infinite combinations enabling you to customise your designs. These panels perform well in areas where consideration must be given to internal ventilation or noise control.

Naturally you can choose from Decor Systems' extensive range of colours and finishes. These include timber, metallic, marble and polyurethane to name a few.

Use DecorEdge decorative edging to enhance your project and accentuate features within your design. DecorSorb is also available providing excellent sound absorption and acoustic management options.

decortrend™

decorply™

Acquire explicit data on this product by referring to the detailed DecorPly Brochure located in your Decor Systems Catalogue

First impressions count. That's why more and more architects and designers are specifying DecorPly for use in some of Australia's finest buildings. Appearance, durability, versatility, ease and flexibility of installation are just some of the qualities that have transformed DecorPly into an industry mainstay.

DecorPly's acoustic properties are second to none. Laboratory tests reveal that high acoustic ratings can be achieved by combining DecorPly with an accredited acoustic backing material such as DecorSorb.

An extensive range of colours and finishes and acoustic options are available.

QUOTE:

" Don't worry about people stealing an idea. If it's original, you will have to ram it down their throats. "

Howard Aiken
[1900 - 1973]

DECOR®

THE FINISHING TOUCH

decorsolid™

Acquire explicit data on this product by referring to the detailed DecorSolid Brochure located in your Decor Systems Catalogue

DecorSolid's clean distinguished appeal is derived from it's natural simplicity. Whether it's in conjunction with other slotted or perforated panels or on it's own, DecorSolid is sure to make a statement.

There are times when the clean lines of a solid panel are compulsory; go no further than DecorSolid, available is an extensive range of veneers, colours and finishes, this versatile yet sophisticated panel is sure to provide architectural inspiration of the highest order.

DecorBond is a world class aluminium composite panel that is only limited by your imagination. Available in any colour, it is rigid and able to be formed into many shapes to suit any design requirement.

This lightweight panel is produced under stringent manufacturing processes thus protecting Decor Systems long-standing reputation for quality and optimum performance.

DecorBond is available with short lead times, in any colour, with no minimum quantity, at a very competitive price.

Service and reliability are words we take very seriously... but then so are quality, creativity, innovation and integrity

Decor Systems Australasia is a family owned and operated business dedicated to the manufacture and supply of premium quality internal wall and ceiling panelling systems.

As a medium size business the organisation dedicates significant resources to customer satisfaction, offering tailored solutions to its patrons. Our dedicated Project Consultants are highly trained in every aspect of every product in our extensive range and are able to answer any query from the most complex of technical considerations to the finest aesthetic detail.

REFERENCE:

"We have been dealing with Decor Systems for over 20 years. The level of service we have received is second to none.

Phone calls are returned promptly, pricing is always readily available and technical advice is readily dispensed.

The staff have always demonstrated a "can-do" attitude and are enthusiastic and passionate in their roles.

Decor Systems is a delight to do business with"

DECOR®

THE FINISHING TOUCH

the process

Our manufacturing processes are rigorously monitored to ensure all products are manufactured to the highest standards. Materials are sourced from a select number of hand picked suppliers to guarantee quality.

At Decor Systems we implement a thorough quality assurance program ensuring that any panel you choose from our extensive range is certain to perform with ease within its designed parameters.

Attention to detail on your project is paramount. Throughout the manufacturing process our dedicated and trained staff develop every panel with due diligence.
We stand by our products and work toward creating the finest finish for your project.

Decor Systems is also dedicated to our environment. Ask for a copy of our Environmental Policy which outlines our strategy of environmentally safe operations within the organisation.
