

**DecorSlat Beam**  
Individual Timber  
Slat Beams

## DECORSLAT BEAM

---

Supplied as individual slats, the DecorSlat Beam is ideal for timber feature ceiling areas.

Each slat is individually hung, with a range of easy fixing options, making the ceiling fully accessible and open.

The beams can be manufactured with a hollow core, making them lightweight and manageable, and are available in a wide range of veneers and finishes.

**Fits around anything.  
Your day, your budget &  
your customer's demands.**

## WHY DECORSLAT BEAM?

---

Our DecorSlat Beam system is a fantastic all-round system that is suitable for virtually any application. We will work with you to ensure that we can deliver a product that fits your budget, works for your design and takes into account all the unique requirements for your project.

### The Benefits

- Fast and Simple to install
- Lightweight option
- Bespoke profile sizes

- Break out Rooms
- Atriums
- Large Public Spaces
- Swimming Pools

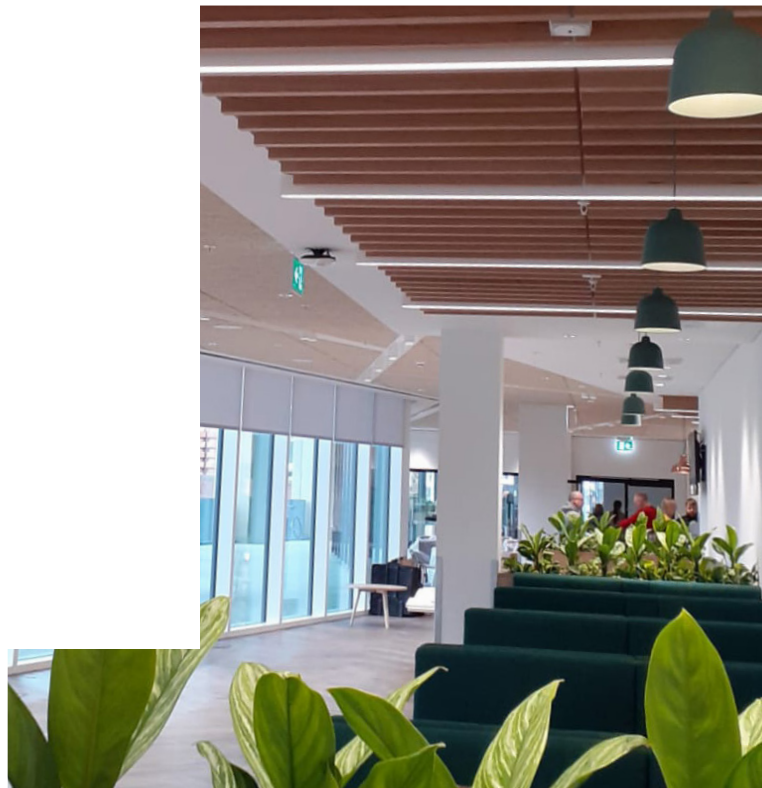

# HMRC Nottingham

## CASE STUDY FOR HMRC NOTTINGHAM

Working with Celtic Contractors, Decor supplied various areas of DecorSlat Beam on this office fit out. The slats were required to be fitted tightly to the soffit so suitable fixings had to be identified. Decor attended site early on in the project and surveyed all areas to ensure the slats arrived at the correct size ready for installation.
